November 18, 1999

Shawn Murphy
Moderator
Industry Numbering Committee (INC)

Dear Shawn:

At the November 16, 1999 meeting of the North American Council (NANC) it was agreed to formally transmit to the INC a copy of the NRO report entitled "Recommendation of the North American Numbering Council Concerning the Replacement of the Central Office Code Utilization Survey (COCUS)" dated June 30, 1999. The NANC requests that INC use this report as a reference document in generating Guidelines for the new HYBRID survey process.

The NANC further requests that INC conclude its HYBRID guidelines work, if possible, within the first half of next year. If INC cannot, for any reason, conclude the work by June 30, 2000, would you please advise NANC. We would also appreciate it if INC would also provide the NANC with status updates on its work, as appropriate, to ensure that the requested work activities will support the NANC's expected completion date.

Specific questions about this report should be directed to the co-chairs of the NRO-WG, being Mike Whaley and Beth O'Donnell. Thank you for your attention to this matter.

Sincerely,

John R. Hoffman
Chairman, North American Numbering Council
